

## Touch the Hearts of Tanzanian Children

♥ ♥ ♥ ♥ **Gusa Mioyo ya Watoto wa Tanzania** ♥ ♥ ♥ ♥

### The Challenges of Daily Life

Tanzania, located in East Africa, is the 5<sup>th</sup> poorest country in the world. With an average household income of less than \$400 per year, families typically comprised of seven or more people struggle to survive on less than \$1 per day. At this heart-breaking poverty level, providing for a child's basic needs – food, clothing and education – is a daily challenge for a family. For orphans, who have often been taken in by their grandparents, the challenges of daily life are often even greater.

### How can I help?

When you partner with a Tanzanian child as a pen pal through Hearts in Unity, you open up a new world of hope for that child. The emotional support that you provide through ongoing communications with your partner child provides the foundation for a special bond of sharing, learning, caring and encouragement... a heart-to-heart relationship that will transform that child's life...and yours.

### Next Steps

To embark on a partnership with a child in Tanzania, please complete the attached contact information and request form and return it to Hearts in Unity.

When we receive your request to partner with a child, we will begin the process to match you up with a child in one of our villages. We will then provide you with basic background history and photo of the child along with additional information and guidelines about correspondence so that you can begin communications with your partner child and start building a bridge of lasting friendship.
